Part. B. for April 29

SUBJECT

Proposal re Water Supply to Belur Town

24 To, K J Seshagiri, Esqr Belur
No L 6816/L 12 & 29
States that the proposal for providing the Belur with a City water supply is not feasible till the finances of the municipality improve

HS 17-4 29

Serial No.

11 Letter - no Rve 126/28-29 dated 16.
from the Deputy commr Hassan &
forwarding proposals in regard to
the water supply to Belur town

(1) There is no definite estimate which may perhaps be called for.

(2) The project amounts to Rs 44000 the municipal council represent that one half of the actual cost of the project viz Rs 22000/- may be met by Govt from State funds, a sum of Rs 20000/- out of the other half of the cost being debited to them as a loan from State funds Subject to its repayment in 20 annual instalments of Rs 1000 each, with interest at 5% per annum.

(3) The municipal council have no objection to bear the annual recurring charges amounting to Rs 2500 which they say, will be got by raising the house tax, octroi duty and by levying water cess. The rest will if approved be requested to take steps to [illegible] for the improvement of the revenue to meet the recurring charges and repayment of loan, if any rest may be sanctioned.

(4) If it is considered necessary to settle the water supply scheme vast

Rev 19/1129. MD 19/1

Sir

L 1929

With reference to the correspondence ending with your letter No L 3622/Ml 27-28-10 dated 15th November 1928, re the representation of Mr K I Seshaiya, Advocate, Belur, for a water supply project for the Belur Town, I have the honor to state that the Executive Engineer, Sanitary and Town Planning Division, having forwarded to me a preliminary project for 44,000/- for water supply by means of pipes from the Vishnusamudra Tank, I consulted the local Municipal Council in the matter, and a copy of their resolution together with a copy of the Municipal President's report No 134-28 dated 14th December 1928 on the subject are enclosed for favour of orders of Government

SS 19/11

2 From the President's report, it is seen that there is considerable difficulty for water supply at present in the town and the Council approve of the project got up by the Executive Engineer, Sanitary and Town Planning Division, but the difficulty lies in finding the necessary funds. The Municipal Council represent that one half of the initial cost of the project viz , Rs 22,000/- may be met by Government from State Funds, a sum of Rs 20,000/- out of the other half of the cost being debited to them, as a loan from State Funds subject to its repayment in 20 annual instalments of Rs 1,000/- each with 5% interest per annum They also request that the balance of their contribution of Rs 2,000/- to-

b

the cost of the project may be permitted to be met out of the surplus balance at the credit of the Municipality, and say that a loan cannot be floated locally for less than 7% interest per annum

3 As regards the recurring charges of the project, which is estimated at R2,500/- the Municipal Council have no objection to bear the same out of their own funds and they hope to be able to meet the expenditure on this account as well as the repayment of the loan to Government by setting apart a sum of R2,000/- out of their income and also by increase of revenue that may be expected by revising the house tax and octroi duty and levying water cess amounting in all to R4,800/-

4 At present, the financial condition of the Municipality is not at all sound The annual normal receipts and expenditure are only about R6,738/- and R6,3 /- respectively on the average of the last three years In view of this fact and of the difficulty and urgent necessity for good water supply to the town, which is a malnad place, I recommend that the Government may be pleased to sympathetically view and the request of the Municipal Council for a State Grant of R 22,000/- and also a loan of R20,000/ from State funds and sanction the water supply project now under consideration I shall instruct the Municipal Council to take action for the revision of the house tax and octroi duty in the meantime

5 The file of correspondence ending with the Municipal President's report No 134-28 dated 14th December 1928 on the subject is forwarded herewith and I request you to kindly place the matter before Government and obtain their sanction to the project at an early date

I have the honor to be,
S i r,
Your most obedient servant,

(R Ramadurgappa)
Deputy Commissioner,
Hassan District

No 13x-28

Reference memo [illegible] dated 28 [illegible] 28 from the Deputy Commissioner [illegible] water supply [illegible] Lur Town

Report

The report and the estimate received from the Executiv Engineer were considered at a special meeting of the [illegible] al Council held on 9th December [illegible] 8 and copy of the resolution passed by the Councilx is herewit submitted for kind orders

2 The Municipality proposes to meet the initial cost of Rs 44,000 as shown below

(1) Free grant of Rs 22,000/- from Government

(2) Rs 20,000/- by raising a loan

As the Municipal Council is not hopeful of getting the loan from private persons at less than 7 interest per annum and as the Municipality is unable to pay interest at this high rate in addition to putting by at least a thousand rupees every year for discharging the debt and also in view of the increased establishment and other recurring charges consequent on the introduction of pipe water supply it is requested that the Deputy Commissioner may kindly recommend to Government to grant another sumof Rs 20,000/- as loan to the Municipality at 5% interest per annum repayable in 20 years

(3) From the present surplus balance at the credit of the Municipality, the remaining sum of Rs 2,000/- out of Rs [illegible] mentioned in para 2 above will be met

3 To meet the annual interest at 5% on the loan of Rs 20,000/- to form a sinking fund for discharging the loan in 20 years and to meet the recurring annual maintenance charges on account of installation of pipes, the Municipal Council propose to augment the present income of the Municipality as shown under

(1) By utilising the present yearly surplus of Rs [illegible] for regular expenditure

(2) By increasing the duty on piece goods from 3 pies to 4 pies per rupee which will give an additional income of rupees 500 per year

(3)

(3) By levy of water tax and revision of present house-tax this will give Rs 1,300 additional

(4) By giving pipe connection to private dwellings an income of Rs 1,000/- is expected

Total Rs 4,800/-

The annual recurring charges are as follow -

(1) Annual maintenance cost as estimated by the Executive Engineer Rs 2,500/-

(2) Interest at 5/ payable on the loan of rupees 20,000 Rupees 1,000 per annum

(3) Annual provision for discharging the loan Rs 1,000

(4) Fund to meet the depreciation of Machinery etc, Rupees 500/- per annum

Total Rs 4,500/- per year

5 The expenditure can be met out of the income mentioned above

There is scarcity for drinking water in this town especially during summer as it is considerable though there are many wells in the town almost all of the fail of water supply from April to June it is a real hardship to get water either from Chennagarayan tank or the Yagachi river

On behalf of the Municipal Council, I request that a sympathetic recommendation may be made to Government to grant the Municipality a loan of Rs 20,000/- at a low rate of interest in addition to a gift free grant of Rs 22,000/-

To K J Sethuraya Esq
Advocate, Belur

Sir

Date of issue 12 4 1929

Signed by mv J K S Iyer

In reference to your representation dated 28 10 28 to the Dewan Suggesting the floatation by the need of a loan for improving the existing water supply to Belur town, I have to state that the finances give but improvement proposal for providing Belur with a costly water supply scheme is not a
